HOW WE'RE ADAPTING

We're updating our system to be able to provide additional support to your business.

GET PAID FOR REFERRALS

Share our online pet first aid & CPR course with your clients and community and earn commissions. Your clients want to still support you and now they can.

In fact, share any of our courses with them.

Whoever you recommend the course to that uses your code receives wonderful training while you receive a higher than normal commission. See the next slide for details.

REFERRAL PROGRAM

HOW IT WORKS

From now through June 30, use your referral code to earn 60% commission when someone uses your code to train online. Your clients will also receive a 10% discount.

NOTE: You will need to follow the steps on the next slide even if you are already an affiliate with ProTrainings. We will deposit your earnings monthly via direct deposit. Additionally, after June 30th, you will continue to receive commissions at our default rates for any future courses that your clients purchase after that date [as outlined in our affiliate agreement](#) and commission schedule.

FAQS

Do I need to have a business to participate?

Nope, anyone can join our affiliate program to refer our courses to family, friends, or anyone in their community. We have tailored our message to our businesses as a way to help generate more revenue for them. We do ask that in order to participate you adhere to the [affiliate agreement](#).

When and how will I receive my commission?

Right now, commissions are set to be distributed within the first 5 business days of each month. These are sent by direct deposit.

Which courses earn me a commission?

You can earn a commission from referring a client to any course in our full library except for those under the "Continuing Education" category, ProHIPAA courses, and ProTrainings UK courses. You can view our full library of courses at www.protrainings.com/courses.
